Faunakram 10L clumping cat litter with lavender (10414)

10414

Faunakram clumping cat litter with lavender scent.

The cat litter is made from bentonite clay, which gives it a strong absorbing and clumping effect. The litter has a fresh scent and superior odor control. The product is dust-free and suitable for all types of cats.

Instructions for use: Fill the litter box with 7-10 cm of cat litter. Remove clumps as you go and refill with more litter as needed. We recommend completely replacing the litter approximately once a week.

NB: Pregnant women and people with a weakened immune system, are not recommended to clean litter trays. Bentonite cat litter should not be flushed down the toilet.

Composition:
100 % bentonite
