Faunakram 12 x 100g Complete cat wet food fishmenu in sauce 6 x Tuna
and 6 x Salmon (10185-05)

Faunakram **Fish Menu** is a complete wet food for adult cats, with a minimum content of 45% **tuna** or **salmon** and with **Anti-hairball** function.

The box is a multipack and contains 2 different flavours: 6 pouches of 100 g Tuna and Chicken in sauce and 6 pouches of 100 g Salmon & Chicken in sauce.

The wet food is enriched with taurine. Since cats cannot produce the essential amino acid taurine themselves, it is necessary to add this to their food.

By giving your cat wet food, you ensure that your cat receives enough moisture.

The product was developed in collaboration with nutrition experts and breeders to ensure the highest quality level and user satisfaction.

The product description on the box is available in many different languages: EN, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES, GR.
