Faunakram 12 x 100g Complete cat wet food meat menu in sauce 6 x Chicken and 6 x Beef (10185-10)

Faunakram **Meat Menu** is a complete wet food for adult cats, with a minimum content of 50% **Beef** or **Chicken** and with **Anti-hairball** function.

The box is a multipack and contains 2 different flavours: 6 pouches of 100 g Beef in sauce and 6 pouches of 100 g Chicken & whitefish in sauce.

The wet food is enriched with taurine. Since cats cannot produce the essential amino acid taurine themselves, it is necessary to add it to their food.

By giving your cat wet food, you ensure that your cat receives enough moisture.

The product was developed in collaboration with nutrition experts and breeders to ensure the highest quality level and user satisfaction.

The product description on the box is available in many different languages: EN, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES, GR.
