

Faunakram 15kg premium meal with salmon and sweet potato (11900)

11900

Faunakram Complete Premium Adult Grain Free Dry Food, is developed for adult dogs, all breeds (+ 12 months).

The product is one of Faunakram's absolute top meals, it contains 20% Salmon. Salmon has a high content of Omega 3 saturated fatty acids, which the dog cannot produce by itself, and at the same time it contributes to shiny fur and less precipitation. Additionally, there is "Sweet Potato" and chicken fat, which ensures a very high taste acceptance in your dog.

The content of vegetables, such as peas, contribute omega 6 fatty acids, which your dog is also unable to produce naturally by itself.

The product has been developed and tested in close collaboration with nutritionists and breeders, to ensure that the highest quality level and user satisfaction is achieved.

The product is manufactured in the EU in IFS certified factories. At Faunakram Pet Food, we check our factories several times each year to ensure that our hygiene, quality and traceability requirements are always at the highest level.

The bag is a white kennel bag with colored label.
