

# Faunakram 800g wet food for sterilized cats (10187)

10187

Complete wet food for sterilized adult cats with a minimum content of 41% chicken.

Contains 4 pouches of 100 g chicken in gravy and 4 pouches of 100 g chicken with salmon in jelly.

Our wet food with chicken in gravy is developed for sterilized adult cats.

The wet food is supplemented with taurine. Since cats cannot produce the essential amino acid taurine themselves, it is necessary to include it in their diet. Additionally, DL-methionine is also added to the food.

Do you doubt whether your cat drinks enough? By giving your cat wet food, you also ensure that your cat gets enough fluids.

The product is developed in collaboration with nutrition experts and breeders to ensure the highest level of quality and user satisfaction.

The product description on the pouch is available in 7 different languages: UK DE DK SE NO FI PL.
