

10115-

Our complete dry food for puppies provides the ideal nutrition during the early growth phases.

With 20% poultry protein, it helps support lean muscle development, so your puppy grows strong and wholesome.

This grain-free recipe is gentle on digestion thanks to the addition of natural prebiotics and probiotics. Omega-3 and Omega-6 fatty acids from flaxseed and salmon oil promote a shiny coat, while vegetables, beets, and peas provide fiber for optimal gut function.

To strengthen the immune system, natural antioxidants from herbs are included, helping your puppy thrive.

This 12 kg bag is perfect for ensuring your puppy gets a good and balanced start in life.

The food is developed in close collaboration with nutrition experts, veterinarians, and breeders to ensure high-quality feed. It naturally meets the guidelines of FEDIAF (European Pet Food Industry Federation) for a balanced and nutritious diet, including vitamins, proteins, fats, and oils to fulfill your dog’s nutritional needs.

All our dry food is produced in Europe, and our factories are BSI, IFS, and BSCI certified.

This variant is also available in 4 kg (10110-10).

The standard languages on the packaging are UK, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES.

The bag is made from fully recyclable materials. Please recycle responsibly to help reduce waste and protect our planet.
