

Faunakram Pre- & Probiotics 10 kg.
Junior GF Poultry 37-17 (10101-10)

10101-10

Our **grain-free food for junior dogs** offers tailored nutrition for growing puppies and junior dogs of all breeds during their most important growth phase. With 37% poultry protein, this dry food promotes the development of lean muscles, helping your puppy grow strong and active. The grain-free recipe is ideal for gentle digestion and is enriched with natural prebiotics and added probiotics for optimal gut function.

Your puppy’s coat will become shinier thanks to the addition of **Omega-3 and Omega-6 fatty acids**, while glucosamine and chondroitin support healthy joints during growth. Additionally, the food is packed with **natural antioxidants from superfoods** to strengthen the immune system.

Our food for junior dogs provides balanced nutrition with everything your junior dog needs, whether it’s a small, medium, or large breed.

The food has been developed in close collaboration with nutrition experts, veterinarians, and breeders to ensure a high-quality feed. Furthermore, this food also complies with the requirements of FEDIAF’s (European Pet Food Industry Federation) guidelines for a balanced, nutrient-rich diet, including vitamins, proteins, fats, and oils, to meet your dog’s nutritional needs.

All our dry food is produced in Europe, and our factories are BSI, IFS, and BSCI certified.

The standard languages on the packaging are UK, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES.

The bag is made from fully recyclable materials. Please recycle responsibly to help reduce waste and protect our planet
