Faunakram Pre- & Probiotics 12 kg DOG GF Chicken & Salmon 28-13
(10109-15)

Our Complete Premium Meal for Adult Dogs is a classic dog food suitable for all breeds, providing your dog with a satisfied and happy belly. With 20% chicken protein, it helps maintain muscle mass, making it perfect for keeping your dog active and strong.

This grain-free recipe promotes lean digestion with the addition of natural prebiotics and probiotics. It also contains Omega-3 and Omega-6 fatty acids, which help maintain a shiny coat and support skin function.

Enriched with vegetables, beets, and peas, it provides extra fiber for improved digestion, while herbs and natural antioxidants strengthen the immune system, keeping your dog lively and energetic.

This 12 kg bag offers balanced nutrition with everything your adult dog needs, whether it's a small, medium, or large breed.

The food is developed in close collaboration with nutrition experts, veterinarians, and breeders to ensure high-quality feed. It naturally meets the guidelines of FEDIAF (European Pet Food Industry Federation) for a balanced and nutritious diet, including vitamins, proteins, fats, and oils to fulfill your dog's nutritional needs.

This variant is also available in 4 kg (10113-10) and 7 kg (10109-15).

All our dry food is produced in Europe, and our factories are IFS-certified.

Standard languages on the packaging are UK, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES.

The bag is made from fully recyclable materials. Please recycle responsibly to help reduce waste and protect our planet.

COMPOSITION:

Dried chicken (20%), dried potato, green peas, pea starch, poultry fat, dried beet pulp, dried salmon (4%), liver hydrolysate, dried animal protein, lignocellulose, minerals, dried chicory (a natural source of FOS and inulin), fish oil, dried herbs (Yucca Schidigera, Rosmarinus sp., Curcuma sp., Citrus sp., Eugenia sp.).
