Faunakram Pre- & Probiotics 4kg. Puppy GF Poultry 27-17 (10110-10)

10110-10

Our **Complete Dry Food for Puppies** provides the ideal nutrition during the early growth stages.

With **20% poultry protein**, it helps support lean muscle development, so your puppy grows strong and wholesome.

This **grain-free recipe** is gentle on digestion, thanks to the addition of natural prebiotics and probiotics. Omega-3 and Omega-6 fatty acids from flaxseed and salmon oil promote a shiny coat, while vegetables, beets, and peas provide fiber for optimal intestinal function.

To strengthen the immune system, **natural antioxidants from herb**s have been added, helping your puppy thrive.

This 4 kg bag is perfect for ensuring your puppy has a healthy and balanced start in life.

The food is developed in close collaboration with nutrition experts, veterinarians, and breeders to ensure high-quality feed. It naturally meets the guidelines of FEDIAF (European Pet Food Industry Federation) for a balanced and nutritious diet, including vitamins, proteins, fats, and oils to fulfill your dog's nutritional needs.

All our dry food is produced in Europe, and our factories are BSI, IFS, and BSCI certified.

Standard languages on the packaging are UK, DK/NO, SE, FI, DE, NL, PL, FR, PT, ES.

This product is also available in 12 kg (10115).

The bag is made from fully recyclable materials. Please recycle responsibly to help reduce waste and protect our planet.

Feeding guide:

Use the feeding table as a guide. Actual intake for your dog may vary, depending on age, activity level and breed. Ideally spread the intake over several meals. Ensure that fresh water is available for your dog, at all times. Please ensure the bag is properly closed after after each feeding.
